**Dave Erickson, Tiger Creek Development,** came forward to provide information on the requested rezoning, stating the request is for a change in the conditions of an existing PUD zoning. He explained the requested change is for larger lots than what is typical in one section of the Charleston Subdivision and small lots in the rear of the property for the development of townhomes. He attributed the reasons for the request being due to the increase in construction costs and interest rates and described the benefits to townhomes being the availability of affordable housing with an intended listing price of \$325,000 to \$350,000.

**Mayor Pro Tem R. Gary Allen** shared his concerns with the proposed development based on the volume of traffic coming through the Promenades Community from the Charleston Place Subdivision due to the failure of the developer to add an additional outlet to the Charleston Subdivision. He asked his fellow councilors to support him in denying this rezoning.

**Director Will Johnson, Planning,** confirmed the buffer was established in 2014 when the developer originally came for the Planned Unit Development (PUD) rezoning for the development of single-family homes. He recognized there were no specifications regarding the buffer on the east side of the property.

Mayor Pro Tem Allen made a motion to increase the buffer on the east side of the property that backs up to properties on Blackmon Road to 50 feet and seconded by Councilor Tucker, which was later withdrawn after discussion.

Mayor Pro Tem Allen amended his original motion requesting to amend the ordinance by adding the condition that the green space as shown on the site plan will be preserved and maintained with no development in perpetuity regardless of ownership and seconded by Councilor Garrett.
